The Village of Hales Corners is pleased to partner with SAFEbuilt Wisconsin to offer commercial plan examination services at the local level as an alternative to submitting to the State of Wisconsin.

Commercial plan exam services works collaboratively alongside the building inspection service SAFEbuilt already provides for our community.

About SAFEbuilt:

Since 1992, SAFEbuilt has offered customized full-service building department programs and supplemental services in short- and long-term engagements to public agencies. SAFEbuilt partners with more than 140 communities of all shapes and sizes throughout the country for the efficient delivery of outsourced community development solutions including building department services, community & transportation planning and code enforcement. We work closely with local governments to meet their communities' unique needs by offering a customized approach that features over 20 years of proven best practices, expert personnel, innovative software, and improved service levels.
